

MARKET REPORT

Wednesday April 15, 2026

Head Sold: 1317

Cows/Bulls: 670 Calves/Yearlings: 647

The market remains stout week after week. We saw some uneven spots solely due to quality on the calf run with a lot of horned and crossbred cattle offered this week. We had a strong cow run with everyone working and cleaning places up for a strong cow market. The packer bull market is outstanding with heavy bulls topping \$245.00/cwt!

If you are looking to upgrade your bull power, now is the time with the packers offering impressive premiums! We are grateful to have gotten RAIN today and a lot of it. Thank You to all our buyers and sellers who allow us to work for them each week!
